

Don't Let Our Children Slip Away – Together Against Addiction

In my 20 years of experience in addiction care, I have seen firsthand how devastating addiction can be – not only for the individual, but also for their family, friends, and future.

What moves me most? The alarming rise in young people becoming trapped in addiction to alcohol, tobacco, vaping, and drugs.

Our Plan

- A **documentary** that shows the raw reality of addiction – unfiltered and unvarnished. It will reveal the physical damage, broken families, job loss, and often, a hopeless future. Addiction is rarely a conscious choice or a sign of weakness. It is often an attempt to escape pain, stress, loneliness, or unresolved trauma. We want to share this awareness with young people — so they learn that there are underlying causes that must be addressed, not just the addiction itself.
 - **School presentations** throughout the Netherlands, with former addicts who share their personal stories — raw, honest, and impactful. These stories make it clear that addiction is not just about substances, but about the pain beneath. We aim to both inspire and confront — to help students understand the real consequences of continued use, and that there are healthier ways to cope with difficult emotions.
 - A **24/7 helpline** for Dutch youth, operated from within our detox clinic — so no one has to feel alone. Young people in the Netherlands who are struggling with feelings of emptiness, stress, or trauma deserve a place where they are heard and supported — without judgment.

Our Goal

To find 50 donors who want to join us in making a difference — each contributing a one-time donation of €3,500.

As a Donor, You Will Receive:

- An exclusive limited edition Royal Coin watch — a tangible symbol of your support.
- Your name featured in the second edition of Health & Tech Magazine.
- If we reach a minimum of 40 donors, you will be invited to a unique presentation evening in November 2025, including:
 - A luxury dinner
 - Official presentation of the project
 - Entertainment (comedian, live music)
 - A special tombola (overseen by a notary) with 5 x 1% profit shares in Villa Vita Nova B.V. — a rare opportunity to become a co-owner of the clinic.

Important to note

If fewer than 40 donors participate, the presentation evening cannot take place. However, all donors will still receive the Royal Coin watch and the magazine feature, and the 5 x 1% profit shares will still be raffled via the notary.

This is a project dedicated to young people in the Netherlands — to protect, educate, and empower them. I sincerely look forward to welcoming you as a donor.

Together, we can give young people the strength to choose life.

Warm regards,

Pascal Jover
